Charity Registration No 2

Dear Sir/Madam

I am writing to you on behalf of the SDC, a registered educational charity and chartered body, promoting the understanding and appreciation of colour.

The SDC has recently published a children's book *Weaver of a Life in Colour*, to teach children about the craft of textiles and the art of colour. The book was written by SDC member and Fellow, Malcolm Campbell, and illustrated by his daughter Sharon Campbell.

Local textile finishing company, WT Johnson of Bankfield Mills, Huddersfield, has kindly agreed to sponsor the donation of one book for the library of every primary school in Kirklees, a total of 193.

Paul Johnson of WT Johnson believes that this donation will encourage children to appreciate the region's textile heritage and to begin the learning process of colour and texture which will serve them well in years to come, perhaps encouraging them to pursue a career within Britain's innovative textile or colour industry.

SDC's Colour Experience team run an extensive programme of educational activity for schools. The unique Colour Experience combines an interactive gallery, hands on demonstrations and workshops designed to meet the STEM requirements of students across the age range from nursery to university. Whether studying light, colour or textiles making use of our in-depth knowledge and specialist facilities including the colour laboratory creates a truly inspiring and engaging learning environment. For further information please email: [colour-experience@sdc.org.uk](mailto:colour-experience@sdc.org.uk).

We hope that your young pupils enjoy *Weaver of a Life in Colour*.

Yours faithfully
